

Who's Who

in E&P A&D 2009

A Supplement to
Oil and Gas Investor A&D WATCH

If there's an opportunity out there, we can get to it.

The oil and gas industry is dynamic and evolving, and demands an advisor with the vision and expertise to keep moving forward. Jefferies' Energy group is recognized as a leading global advisor for transaction services, and for solving complex oil and gas business challenges, even in the most difficult and challenging environments. We built our advisory business by combining sophisticated transaction knowledge with hands-on E&P expertise, and work with all players in the industry, handling smaller deals as well as large corporate transactions. We match our deep industry insight with the full range of investment banking products, including advisory services, capital raising and international reach. Assurance that no matter where your opportunity lies, we can help you uncover it.

More so now than in recent memory, relationships are crucial to getting deals done. As the majority of assets are changing hands behind the scenes in response to continuing economic uncertainties, “who you know” may make the difference in getting inside access to quality properties or left wondering when A&D activity will pick up. Don’t be fooled—deals are getting done.

The *Who's Who in E&P A&D* directory is the tool you need to stay connected to the key players in the upstream A&D marketplace. This year’s print edition features more than 500 listings of asset buyers and sellers, representing more than 300 oil and gas companies ranging from small private shops to supermajors. Who you need to know is right here.

New entries this year include **Bob Cunningham** with newly formed Zone Energy, **Ellen DeSanctis** with Rosetta Resources, **Craig Collins** at Anadarko, **Lisa Stewart** of Sheridan, Wapiti’s **Albert Frederick**, **Joe Pukaite** at Plains E&P and **Peter Hatgelakas** of Intrepid Exploration.

Some familiar names have changed shingles: Forest’s **Binney Williamson** now resides with R. Lacy, Hunt Petroleum’s **Kimberly Lacher** is at Duer Wagner and **Bryan Dullye** shifted addresses to Pioneer Natural, EnerVest’s **Danny Wilson** moved to Saxet, Edge’s **C.W. MacLeod** can be found at Sanchez, EOG’s **Flavious Smith** is with Forestar Oil and Fidelity’s **Betty Dieter** BDs for Amadeus.

New companies this year: Plymouth Exploration has been formed with a Midcontinent focus with **Alex Kronfield** leading the way. **Kathy** and **Bill Hogenson** have formed Zone. **Rich Talley** is back in action with Primary Natural Resources III. Neuman’s **King Tomlinson** has created Coastal Plains.

Continue to stay in touch: the *Who's Who in E&P A&D* directory is now updated year-round at A-Dcenter.com, the real-time tool for finding deals, metrics on deals done, the key deal-makers and advisors, and more market intelligence for successful buying and selling. The searchable *Who's Who* database includes all key facts, from company and go-to contact name to areas of operation and sports/hobbies. Need assets in the Permian? Search, sort, find. Need a golf foursome in the Barnett? Search, sort, find.

Inside, indices are by company and by contact name. And you’ll find a directory of A&D advisory firms as well. A “Get Listed” form is provided for making updates or getting added to the directory.

See you at A-Dcenter.com.

Your BD Team has Better Things to Do Than Search Multiple Sites for Assets for Sale.

With the new **A-Dcenter.com** you can get your BD team back to buying and selling assets, rather than surfing the web for leads. Save time, save money, take advantage of the current buyer's market and stay ahead of the competition with the **A-Dcenter.com's** On The Market Database.

With more than 3,500 asset listings, it's the single source of all significant current offerings in a searchable, sortable, and real-time format – from auction to negotiated, from asset to corporate, and from ORRI to operated. The On The Market Database will instantly tell you what's available for purchase right now in the U.S. and abroad. Just type in "Texas" or "Wyoming" ...or by play – "Bakken," "Haynesville," "Marcellus" and more. All from a trusted, unbiased and respected source – the editors of *A&D Watch* and *Oil and Gas Investor*.

Also, the website's "Most Hit, Most E-Mailed and Most Searched" results feature reveals up-to-the-minute hot topics among your peers and competitors.

A-D CENTER.COM ALSO PROVIDES:

- *A&D Deals Database*
- *Who's Who in E&P A&D Database*
- *Networking Events Calendar*
- *Online Exclusives*
- *Breaking News E-Alerts*
- *Print & Web Archives*
- *Survey Results*
- *A&D Conference Archives*
- *Blogs*
- *Video and Audio Interviews*
- *ESP Bankruptcy News*
- *And More!*

Introducing the Unconventional Resource Webinar Series

Haynesville – Eagle Ford – Marcellus – Barnett – Bakken – International

Shale-gas plays across the U.S. continue to swell producers' market caps and investors' return on investment, despite lower natural gas prices, as these plays, along with the Bakken oil-shale development that is experiencing improved-oil-price-based economics, hold the greatest promise for repeatable, abundant profit-making.

This six-webinar Unconventional Resource series focuses on the current dynamics of each of the hottest shales—the emerging Eagle Ford, the nascent and bountiful Haynesville, the gigantic and thick Marcellus, the reliable Barnett, and the resurging Bakken—plus it takes the promise abroad in a look at U.S. producers' opportunities to apply their expertise to shales across the world.

Seventeen experts discuss leasing trends, take-away capacity, drilling results, well economics, lease law, tax law, water-management policy, technological advancements, and always-important oil- and gas-price forecasts—plus Euro gas politics that are driving interest in importing excess U.S. shale gas production to European shores.

This series is the must-have companion for developing the most current unconventional-resource best practices, for E&P executives, financiers, investors, G&G professionals, oilfield-services partners, consultants and advisors. And, the opportunity does not end: These six webinars will be archived for attendees to revisit again, and again.

The Unconventional Resource Webinar Series Schedule:

- ✦ **The Haynesville Bottom Line: Leasing, Take-Away, Well Results**
August 20 @ 10:00 AM CDT or Available On Demand
- ✦ **The Emerging Eagle Ford: Early Results**
August 25 @ 10:00 AM CDT or Available On Demand
- ✦ **FREE! The Marcellus Bottom Line: Take-Away, Well Results, New Tax & Water Issues**
September 10 @ 10:00 AM CDT
- ✦ **The Barnett Bottom Line: Leasing, Take-Away, Well Results**
September 17 @ 10:00 AM CDT
- ✦ **The Renewed Bakken/Three Forks-Sanish: Economics, Well Results, Technological Advancements**
September 24 @ 10:00 AM CDT
- ✦ **Translating The Profit Overseas: International Unconventional Gas Opportunities, And The Macro Gas- Price Forecast**
October 1 @ 10:00 AM CDT

Divestiture Focus, Principal Involvement, Integrity

RBC Richardson Barr has a very conscientious set of corporate goals. Attaining a high volume of transactions is not among them. Maintaining the integrity of every transaction is, as is providing extraordinary service. Principal involvement from origination to negotiating and closing is paramount, affording clients access to well-informed, consistently up-to-speed representation. The firm is extremely selective in choosing the number and caliber of transactions to steward, simply because we consider all clients worthy of top management's continuing involvement.

Whatever the service being called upon – from corporate and asset divestitures to fairness opinions – RBC Richardson Barr is perfectly poised to assist with independent, non-conflicted financial advice.

Out of the shale, and into the bank.

Leading the way...having closed over
\$2.5 billion in shale transactions in 2008,
our expertise is unmatched.

Our complement of technical and strategic marketing
services is designed to manage the divestiture
process for you.

Our pledge is that no other acquisition and divestiture
firm will work harder, longer or smarter to help provide
profitable decision making.

albrecht & associates, inc.

oil & gas divestment specialists

Unsteady State

Since we opened our doors for business in 1987, we've seen changes in the oil and gas industry continually reshape the M&A market. Operationally, technology has turned reservoirs once described as source rock into some of today's most economic and productive assets. Financially, the increase in M&A participants has resulted in a more efficient and more liquid market, even as prices have swung from one end of the spectrum to the other.

What hasn't changed over all these years is the need for sound advice during the divestment process to obtain top dollar for your assets. Our engineers and geologists have over 150 years of combined sell-side experience with Albrecht & Associates and we have sold assets in every market condition. We are different from other divestment firms because the valuation and advice we give our sellers is based on **our** grass roots engineering of your property, not on metrics from third-party reserve reports or rules of thumb.

We know what we sell. Our results confirm this.

Ask our sellers. Ask our buyers. Ask us what we can do for you.
