# WHO'S WHO in E&P A&D 2018

## Let This Book Remain Your Guide

In the months since this directory was published, Oasis Petroleum Inc. found a cozy little 22,000-acre spot in the Delaware Basin, Concho Resources Inc. and RSP Permian merged in a \$9.5 billion deal and foreign investors rekindled interest in the Marcellus and Eagle Ford shales and in Oklahoma.

In the Northeast, EQT Corp. acquired Rice Energy Inc. for \$8.2 billion including debt. After a flurry of deals large and small in the Permian Basin, buyers are looking for opportunities in the Eagle Ford Shale and Oklahoma.

The long-running *Who's Who in E&P A&D* continues to feature the folks who make those deals happen. It's not merely a directory, but a map of the neighborhoods where people are buying and selling, looking to do so with integrity and a little fun.

As one E&P company noted in its listing, it's looking to acquire low-decline, heavy PDP properties. "We like well-aged oil and gas fields old enough to collect Social Security," one seasoned vice president wrote. "Not much interested in juvenile or teenage horizontal resource plays: too unpredictable."

For 2018, *Oil and Gas Investor* magazine puts in your hands the definitive tool for connecting to the big E&Ps and the startups that may be willing to swap acreage to extend a lateral location, provide the exit for a noncore asset or sell a piece of the action in the perfect play. As in years past, this edition provides a direct line of contact to the A&D point person for major oil companies such as ExxonMobil Corp. and the growing crop of minerals companies.

Foremost, the *Who's Who in E&P A&D* is a guidebook for you and your colleagues. It contains roughly 500 A&D professionals representing hundreds of companies. Inside are the presidents, CEOs, founders and land and acquisitions managers who are the gatekeepers to possible sales, acquisitions and trades.

Many have moved to new companies, but with your help, we've managed to track them down. So, thank you: Without your continued assistance and willingness to participate, this directory would not exist. Each year, you take the time and effort to update us with your current information, provide new photos and new names and, upon retirement, let us know who succeeds you.

Please stay in touch with [OilandGasInvestor.com](http://OilandGasInvestor.com) and let us know if your information should change. Our online searchable database is updated through the year and allows visitors to find current information.

As always, may you have good fortune and great deals.

—Darren Barbee, Senior Editor, *Oil and Gas Investor* magazine

# MAXIMIZING VALUE in the MID-CAP MARKET

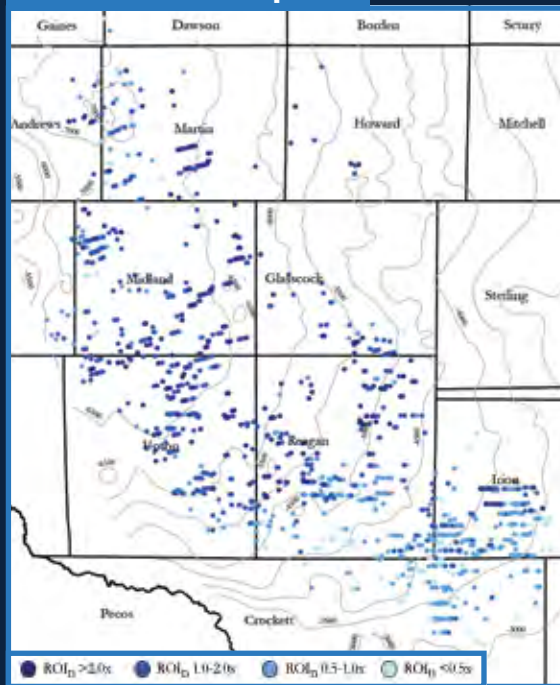

**Detring Energy Advisors brings the bulge bracket A&D sell-side process to the mid-cap market, filling the void for assets too large for auction houses and too small for investment banks.**

We target closing 10-15 transactions per year, allowing us the time and bandwidth necessary to professionally execute each divestiture process and maximize value for our clients.

## Delaware Wolfcamp A

## Midland Wolfcamp B

Detring has analyzed >50,000 wells in the Lower 48, enabling us to quickly evaluate opportunities and successfully market properties throughout the U.S. Our divestiture model maximizes value regardless of location, with our firm having closed transactions from California to New York, and all major basins in between.

*The company to call*  
**BEFORE**  
*you sell.*

A 1031 exchange or pay the taxes? Before you answer, talk to us. Since 1991 we've helped our energy clients use LKE's to successfully defer capital gains tax on over \$35 billion of proceeds on large energy transactions. We've helped them regain control of their wealth. Our team is ready to do the same for you.

**You can call on our expertise.**

## Where Credit Is Due:

### How to Comply With Copyright Laws

We work hard to make *Oil and Gas Investor* the best source of petroleum investment information available. Readers rely on it for investment decisions because they respect our independence and objectivity. We need to control the use of our material to keep the trust of our readers.

Copyright laws prohibit the copying of any material—and that includes photocopies—in this magazine without the permission of the publisher.

If you want to make one photocopy of an article to send to a friend, that's okay. Just be sure to give us credit on the copy. But, if you want a lot of copies of an article, you need to get clearance from us first. Then you can make all the copies you need without worrying about copyright infringement.

Easier still, ask us about reprints. The articles you want can be reprinted on the same high-quality stock as the magazine. You get first-class reprints to send to investors or prospects.

For more information about reprints, copies and copyrights, contact Carol Nuñez, production director.

# GeoWeb Portal

Explore the industry's most complete database  
of global energy infrastructure assets

**R**extag's GeoWeb Portal is your gateway to understanding the complex energy networks that power our world. Through its intuitive web-mapping navigational tools, you can locate, measure and label energy assets such as pipelines, electric power lines, refineries, and gas plants. And with its powerful query and filtering features, you can drill down into the data by facility name, owner, operational status and more. From the well head to the burner tip, GeoWeb Portal delivers a big-picture view with remarkable detail.

Gain unprecedented access to data to map and research more than a million miles of oil and gas pipelines, hundreds of thousands of miles of electric transmission lines and tens of thousands of facilities such as gas processing plants, refineries, power plants, and much more!

A PIONEER IN THE  
DIVESTITURE INDUSTRY

ESTABLISHED IN  
**1985**

 **MEAGHER**  
ENERGY ADVISORS

# A Pioneer in A&D Since 1985

Meagher Energy Advisors is an independent, full-service firm comprised of a dedicated team of qualified professionals in engineering, geology, land and marketing. We are focused on one goal - the successful consummation of oil and gas asset divestitures in the upstream and midstream sectors throughout the US. With transactions ranging from \$5 million to \$2 billion, we offer a unique partnership advantage, supporting our clients throughout the entire transaction process - from origination to closing.
