Oil and Gas
Investor **A&D WATCH**

If there's an opportunity out there, we can get to it.

The oil and gas industry is dynamic and evolving, and demands an advisor with the vision and expertise to keep moving forward. Jefferies' Energy group is recognized as a leading global advisor for transaction services, and for solving complex oil and gas business challenges, even in the most difficult and challenging environments. We built our advisory business by combining sophisticated transaction knowledge with hands-on E&P expertise, and work with all players in the industry, handling smaller deals as well as large corporate transactions. We match our deep industry insight with the full range of investment banking products, including advisory services, capital raising and international reach. Assurance that no matter where your opportunity lies, we can help you uncover it.

WHO'S WHO IN E&P A&D 2010

2010 has proven decidedly better for M&A than 2009 as commodity prices have stabilized, debt and equity markets have re-opened, and buyer and seller expectations have aligned. A&D is back in business, although somewhat cautiously.

According to PricewaterhouseCoopers, upstream deals in the U.S. in second-quarter 2010 totaled 113 for nearly \$25 billion, up from 87 in first-quarter 2010, more than double in value from \$12 billion. Comparing year over year, first-half 2010 deal value was up 600% over the previous year on one-and-a-half times more deal flow.

In this issue of the annual *Who's Who in E&P A&D*, nearly 600 acquisition and divestiture professionals are profiled in these pages, featuring go-to personnel within E&P companies for buying and selling assets. They represent some 330 companies—some familiar, some new.

Some familiar names are gone this year: notably, XTO Energy has been absorbed by ExxonMobil, Encore Acquisition is now part of Denbury Resources and Mariner Energy is being bought by Apache Corp. New names this year include former Encore CEO Jonny Brumley forming Enduro Resources with a \$200-million commitment from Riverstone/Carlyle, and Louis Stipp and Steve Robinson have formed Houston-based Tradition Resources.

Changes this year include Linn Energy's Curtis Newstrom switching camps to Midstates Petroleum. Apache's John Christmann has moved up and David French moves into business development. Quantum Energy's Lance Lauck has joined PDC Energy. Randy Pick has joined LLog as managing director of A&D. Stone's Stacey Frederick takes over BD duties at Shelf Energy. Robert Ransone has joined King Private Equity and Scotia Waterous' Ron Gajdica goes to EV Energy Partners.

We hope you find the 2010 directory useful. Indexes are by company and contact name. And, you'll find a directory of A&D Advisory Firms here as well.

And continue to stay in touch: the *Who's Who in E&P A&D* directory is now updated year-round at A-Dcenter.com, the real-time tool for finding deals and market intelligence on deal makers. And you can update your listing or add a new listing there as well.

May all your deals be good.

Divestiture Focus. Principal Involvement. Integrity.

RBC Capital Markets is a leading North American acquisition and divestiture investment bank. Effective December 2009, Rundle Energy Partners joined RBC Capital Markets. Operating as RBC Rundle, and partnering with RBC Richardson Barr, our focus continues to be one of providing clients with the best technically based A&D services in the E&P industry. With the ability to draw on the capital raising, international relationships and M&A capabilities of RBC, we provide our clients the added benefits of a full service investment bank with significant cross border A&D capabilities.

RBC Richardson Barr and RBC Rundle share a very conscientious set of corporate goals. Attaining a high volume of transactions is not among them. Maintaining the integrity of every transaction is, as is providing extraordinary service. Principal involvement from origination to negotiating and closing is paramount, affording clients access to well-informed, consistently up-to-speed representation. We are extremely selective in choosing the number and caliber of transactions to steward, simply because we consider all clients worthy of top management's continuing involvement.

Whatever the service being called upon – from corporate and asset divestitures to fairness opinions – we are perfectly poised to assist with independent, non-conflicted financial advice.

It's Time. Put our client focus to work for you.

REPUTATION. EXPERTISE. SERVICE.

More companies pick NSAI for their SEC reserves reporting than any other consulting firm.
 (based on most recent John S. Herold, Inc. survey)

NSAI CERTIFIED

Judgment, experience, and data are the foundation of an NSAI evaluation. When it is NSAI certified you can count on a full and fair inventory of reserves and cash flow.

OPERATORS ARE *soaring* IN THE EAGLE FORD

While uncertainty may cloud the Gulf of Mexico, operators are flocking to the promise of oil and gas production in the Eagle Ford shale basin. Players shift acreage positions while contractors and services companies tweak drilling and completion technologies, but the bottom-line remains unchanged: the Eagle Ford is getting plenty of action. Are you staying on top of this trend?

Hart Energy's series of **Developing Unconventional Gas (DUG™) conferences** tracks the heart-beat of technology, finance and strategy behind the hottest plays in our industry today. Now in their sixth year, Hart's DUG™ conferences bring together the operators, service companies and investors who need to keep their fingers on the pulse. Already nearly 1,000 of your peers and competitors are planning to attend the **DUG Eagle Ford** conference this October in San Antonio. Shouldn't you be there, too?
